

# Waves

GRES PORCELLANATO / PORCELAIN STONEWARE

## Waves

Waves è una pietra caratterizzata da audaci venature, che sembrano quasi "onde" spostate dal vento rendendo l'architettura della grafica unica nel suo genere. La collezione si sviluppa in quattro colorazioni, in tre diversi formati 30x60, 60x60 e 60x120 tutte rettificate offrendo svariate soluzioni di posa per interni e per esterni. Le quattro tonalità sono marcate da una grafica intensa che ne esalta la sua bellezza ed il suo carattere grazie ad una miscela di vene e colori, a tratti totalmente diversi fra loro ma che nel contesto rendono la serie unica, dinamica ed originale. Una pietra di superba bellezza che racchiude in un unico prodotto design, ricerca e tecnologia.

**P**

*Waves collection is a stone finish characterised by bold veins, which in the overall design turn into "waves" as if delineated by the wind of time, making the architecture of the graphics unique. The collection is available in four colours in three formats, 30x60, 60x60 and 60x120, all rectified, offering various laying solutions for indoor and outdoor use. The four shades are marked by an intense graphic distension that enhances its beauty and character thanks to a mixture of veins and colours, at times different from each other but which, in the complete context, make the series unique, dynamic and original. A stone of superb beauty encompassing design, research and technology in a single product.*
